ASX Announcement

Drilling Commences at East Ponton

Highlights

- Drilling has commenced at Regener8's East Ponton Project
- Hatlifter (Ni-Co) and Grasshopper (REE-Nb) targets to be tested

Regener8 Resources NL (ASX: R8R) (**Regener8** or the **Company**) is excited to announce maiden drilling program commencement at the Company's East Ponton project. The drill program will initially test the Hatlifter paleochannel-hosted Ni-Co target and Grasshopper REE-Nb carbonatite prospect. The campaign is planned to run for approximately two weeks and complete 11 holes.

Regener8 Managing Director, Stephen Foley, commented:

"We are excited to finally be on ground at the East Ponton project for the maiden drilling program, since executing the option agreement over the initial tenements in 2023. This is a culmination of substantial effort undertaken by our service providers, contractors and stakeholders. We look forward to seeing what the drill bit reveals."

This ASX Announcement has been authorised for release by the Board.

Background Regener8 Resources Projects

Regener8's diverse and future facing exploration project portfolio consists of three key projects across Australia:

1. **North Achilles Project, South Cobar, NSW:** Polymetallic (Au, Ag, Pb, Zn)

Located immediately beside and along trend of Australian Gold and Copper's (ASX:AGC) Achilles discovery with outstanding results including **5 metres @ 16.9g/t Au, 1,667g/t Ag, 0.4% Cu & 15% Pb + Zn** (A3RC030 - AGC ASX Ann. 04.06.2024)

2. **East Ponton Project, WA:** Critical Minerals (Rare Earths, Ni, Co)

Located approximately 220km east of Kalgoorlie and nominally 40km south south-east of of known carbonatite discoveries. These include the exploration restricted Cundeelee carbonatite, described by BHP as the largest, effectively untested carbonatite in the world (port A56942, BHP 1998) and the Ponton Intrusion discovery with some of the highest-grade intersections ever found in Australia including (ASX: GXY announcement 11 January 2011) **16m @ 14.48% TREO** (PN03A), **28m @ 10.50% TREO including 6m @ 20.57% TREO** (PN10A) and **26m @ 6.99% TREO** from surface including 8m @ 13.12% TREO (PN09A)

3. **Kookynie Gold Project, WA:** Gold

Sitting within the Kookynie Gold district north of Kalgoorlie, the project hosts substantial historical workings and exploration with intersections including **2m @ 70.5 g/t Au** (RC38), **2m @ 15.4 g/t Au** (RC315) and **2m @ 11.32 g/t Au** (RC391). Regener8's 2023 program found encouraging results which included **5m @ 3.18 g/t Au** (NGRC017) and **2m @ 7.77g/t Au** (including **1m @ 14.8 g/t Au** in NGRC037).
